

A Competitor of Davidson's CASH STORE Is helping the sale of Moore's Steel Ranges.

He starts in with a whine and ends up with a snivel. He spends so much time running Davidson and the Moore's ranges down that he doesn't have time to talk up his own range, and the fun of the whole thing is the customers all come and tell us about it and if they haven't already bought a Moore's range they buy one, while in the meantime this competitor with his eyes both in one hole, set in a peaked head keeps on knocking Davidson's Cash Store and Moore's Steel Ranges.

He says it's a shame the way Davidson advertizes these Moore's Steel Ranges and so many people are buying Moore's ranges when they ought to buy his range, etc., etc. CUSTOMERS LISTEN! Remember that every Moore's range, whether you pay \$20.00 or \$67.50 for it is warranted to give absolute satisfaction and with ordinary family use we will replace any repair that cracks or burns out within one year from date of purchase. Also remember that when you buy a Moore's Steel Range you get 10 days or two weeks and don't find it to be as good if not the best baker and fuel saver you ever used bring it back and get the cash you paid us for it.

The testimony of the many using them and this guarantee ought to cut out anything our competitor might say. Moore's Steel Ranges in 24 styles and patterns from \$20.00 to \$67.50, at

Davidson's Cash Store Telephone Red 363

BECOMING GLASSES

Are just as much to be desired when it becomes your duty to wear them. It is also very essential that the lenses should be properly centered, the pupillary distance must be perfect. The size of the lens conform to the features of the wearer unless these little details are carefully looked after right lenses will seem wrong. We look carefully after all these little details.

Glasses right, good sight.

THE WEATHER

Local Daily Weather Report for The Arizona Republican.

Forecast for today—Partly cloudy; showers.
Data for 24 hours ending 8 p. m. yesterday:

Temperature	Departure	Departure
Since	Since	Since
7 A.M.	1st of Month	Jan. 1, 1904
78	79	+5
		+279

Maximum temperature, 89 minimum temperature, 68.
Average relative humidity, 40 per cent.

Total precipitation—0.
Character of the day—Clear.
M. E. BLYSTONE,
Section Director.

PRESBYTERIAN CHURCH—Services at the Presbyterian church tomorrow will be as follows: Sabbath school 9:45 a. m. Preaching service at 11 a. m. and 7:30 p. m. The pulpit to be filled by Dr. Preston McKinney of Los Angeles who was pastor of this church for seven years. Mrs. Dr. Richards who has had charge of the music during the summer will lead tomorrow. Y. P. S. C. E. meeting at 6:30 p. m. A welcome to all.

MR. CRENSHAW BACK—A. L. Crenshaw of Cincinnati, who spent last winter in Phoenix returned yesterday and will probably be here most of the winter. Mr. Crenshaw it will be remembered, identified himself with the country last winter by the purchase of the well known Field's ranch on Cave Creek and also by investing in some promising mining property in the Cave Creek district the development of which will occupy his attention this winter.

A PLEASANT VISIT—Mrs. C. Lund has returned from a three months' visit in the east having had a most delightful time. She visited friends in El Paso both going and coming, but spent most of her time in Illinois visiting relatives at towns she formerly lived in making two or three trips to the fair during the summer. On the way home she spent some time with relatives in San Antonio, Tex. Though she was greatly troubled with asthma when she lived in the east she did not experience the slightest trouble this summer and had a good time all the time. Mrs. C. H. Branzell, a sister of Mr. Lund, returned home with her and expects to remain during the winter.

RESERVOIR WRITTEN UP—There appeared in the last issue of the day Examiner, an extended and very interesting account of the Tonto storage enterprise and the progress of construction work being prosecuted by the government preliminary to the actual building of the dam. It was written by Walter Reid, formerly connected with the business office of The Republican and at present an occasional contributor to its columns. The article cannot fail to give the valley some very valuable and legitimate advertising, at the same time being a very interesting news story.

ACROSS WESTERN BILLOWS—Mr. and Mrs. Fred A. Woolsey of Peoria, Ariz., returned home Thursday from a most enjoyable summer outing that included a voyage to Hawaii and return. They left here on the 4th of July going first to Redondo beach and then to San Francisco where they took the boat to Honolulu. They enjoyed their visit there immensely both for the novelty of their surroundings and the real pleasures afforded. Hawaii they think is a beautiful country and the surf bathing there is the best they have ever found anywhere. The temperature is equable and mild, it rained a little every day they were there but curiously enough the agriculturists kept right on irrigating just the same, not permitting a little thing like rain to interfere with the proper wetting of their lands. After returning to California again Mr. and Mrs. Woolsey spent some time at the beaches in the vicinity of Los Angeles before coming home.

THE HIGH SCHOOL—The first week of the Phoenix high school gives promise of the best year in the history of the school. There are already 160 pupils enrolled a large number for so early in the term. The management is on a slightly different basis this year. Under a law passed by the last legislature the superintendent of the high school will have charge of the eighth grade of all schools within the high school district which is composed of eleven districts. Superintendent Blount will therefore devote less time to teaching and will be engaged a considerable part of his time in the supervision of the eighth grade. It is not generally known how great a number of pupils of the eighth grade are in the outer

THE HUB
Phoenix, Arizona

districts. Last year those districts contributed one fifth of the attendance of the high school and this year they sent about the same proportion. Professor Blount has called a meeting of the teachers of all the schools in the high school district. It will be held in the high school building at nine o'clock this morning.

OFF FOR PRESCOTT—John Hardee, a well known cattleman in the Castle Creek country arrived here yesterday en route to Prescott to attend the Yavapai county democratic convention. Democracy is one of the strong points in his religion and he wouldn't miss a convention whatever the cost and it probably costs him as much as any man in the county to go. In the first place he has to ride down to Phoenix on horseback, about sixty miles to change his overalls and then buy a ticket to Prescott and back, pay his hotel bills, etc. But the satisfaction is fully worth the money or at least he thinks it is which amounts to the same thing.

A DEER HUNT—O. H. Christy returned yesterday from a deer hunting expedition in the vicinity of Turkey Creek in Yavapai county. He was accompanied by Fred Venator of Mayer. They got one deer, lost it and afterward recovered it. Having killed it they concealed it in the brush and went on to look for more. When they returned the carcass was gone. They had no trouble in tracing it and the trail led them to a ranch house some distance away. When the people of the house saw them coming there was a commotion. They did not have to ask for the deer for the man of the house said that a couple of his boys had found the carcass and thinking that it might not be called for they took it away. The deer had been half skinned by the finders. Mr. Christy says there are a great many deer in that region but they are wild and hard to find on account of the heavy growth of brush in the mountains. Some of the deer hunters unable to contain themselves until the beginning of the open season went out several days before and since then the deer have been hunted so persistently that they are on the look out.

Mrs. Aylin has returned. Hair goods, toilet articles. Hair dressing parlors, 11 S. Center st., room 15.

Ed Lightner's cab is on the street again and is doing business at the same old stand. Telephone Main 152.

Hay, Grain, Seeds, etc., bought and sold. W. E. Barry, successor to H. H. Creighton, 117 E. Jeff. Phone Main 224.

ASTONISHING RESULTS.

Follow Each New Discovery of Science
The great strides that medical science has made in the last few years is due to the germ theory. When the germ of a disease has been discovered, the doctors have not been slow in finding a drug to kill it. In a few days, it will be rare to find a bald headed man or woman. The falling out of hair is due to a dandruff germ, and now it has been discovered how to kill this germ. The remedy used is called Neogen. The remedy used is called Neogen. The remedy used is called Neogen. Its success has been marvelous. Not a failure has been so far reported. It is also a delightful hair dressing free from oil or stick substances. Try it and be convinced of its actual merit. Sold by leading druggists. Send 10c in stamps for sample to The Herpiche Co., Detroit, Mich. Wakefield's pharmacy, special agents.

On the Shelf!

That doesn't mean that they're back numbers, but it does mean that some of the snappiest \$2.50 to \$4.00 ladies' shoes ever made have been received from Kinsenderff-Dittman Shoe Co., and we have them marked down and put on the shelf ready to be fitted, and everybody knows that "fitting the feet" is our long suit.

Among the new things in the shipment are a patent kid plain toe very neat and dressy at \$3.50; a kid, plain toe lace shoe for the aristocrats, at \$4.00; a heavy sole blucher patent tip, a daisy, at \$3.00; a patent kid, imitation welt, at \$2.50.

If you can buy better shoes than these for the money we would like to see them.

We still give tray coupons with every purchase and the trays are going fast. A good thing like this doesn't last always.
